

Adhesive

CROMOGENIA-UNITS, S.A.

FORZAL 6040

FORZAL 6040 is a one-component solventless PU adhesive, 100% solids allowing to obtain complexes of OPP to paper and paperboard.

Technical Characteristics

<i>Physical form</i>	Transparent liquid
<i>Solids content</i>	100%
<i>Specific gravity</i>	1,1 g/cc
<i>Viscosity (50°C)</i>	20 000 – 30 000 cps

Instructions for use

It is used in solventless film coating machines to reduce the viscosity.

Forzal 6040 must be heated to 50-60°C and the rolls to 60-70°C.
